

# The Scottish Branch of the Royal Institution of Naval Architects

## Ship Operations from an End User Perspective

**Mr Euan Benyon Master Mariner, and Dan Barton Chief Engineer,  
CalMac Ferries Ltd**

**CalMac Ferries – Connecting the Islands** - CalMac operate 36 vessels ranging from 12m to 117m, completing crossings of 5 minutes to 5 hours and connecting the Scottish mainland with 22 of the major Islands. Dan and Euan will discuss life and operations on board, including the challenges faced with different vessels, routes and customers, technology and current and future pressures and targets. They have also been seconded for several Operational Planning projects including providing information for new vessel builds and will discuss how operational design can be improved using feedback from vessel crews.

**Tuesday 6<sup>th</sup> October 2020  
at 18:30**
