

RINA UAE Branch

THE ROYAL INSTITUTION OF NAVAL ARCHITECTS

Report of Branch Meeting & Technical Paper Presentation

RINA UAE organized a Branch meeting and technical paper presentation at Ball Room, Grand Excelsior Hotel, Dubai on 30 April 2018.

Three (3) papers were presented.

Geir Fuglerud, Maritime Area Manager, Middle East & Africa, DNV GL presented the paper “**DNV GL – Pioneering Digital Classification**”. The paper gave insights into the steps DNV GL as a leading class society is taking to transform to a more digital future, using technology to operate more efficiently and in providing increased value to DNV GLs client base.

Willem Moelker, Sales and Marketing Director, Albwardy Damen gave a presentation on **Adapting to the new reality– Smart Maritime Solutions**. The paper touched upon the current maritime market and the new normal levels and how Albwardy Damen are adapting itself to the industry by utilizing and making best use of smarter solutions.

Paul Steinman, Product Manager for Veem Gyro presented **Gyrostabilizers**. Concept of gyrostabilizers for reducing roll motion, the various models available in market from Veem Gyro and the relative advantages of the system with respect to other roll stabilizing techniques were touched upon in the presentation.

The event was supported by Exalto Emirates.

Over 50 attendees including members and invited guests were present and interacted with the speakers. Rajesh Panicker, RINA UAE Branch Secretary opened the proceedings of the evening and introduced speakers and their topics.

Chairman of RINA UAE Branch, Mr. Ashik Subahani spoke about current and future activities of RINA UAE including involvement with Seatrade Maritime ME Exhibition and presented mementos from RINA-UAE Branch to the day’s speakers.

Event proceedings were closed with dinner.

Photos of the event are attached.
