The Royal Institution of Naval Architects is an internationally renowned professional institution whose members are involved at all levels in the design, construction, and maintenance of marine vessels and structures in over 90 countries. Members of the Institution are widely represented in industry, universities and colleges, and maritime organisations worldwide.

Those who are studying to gain an academic qualification in a subject relative to the design, construction and maintenance of marine vessels and structures are eligible to join the Institution as Student Members and enjoy the following benefits and services:

- **Professional qualification** that is internationally recognised as achieving the highest standards of competence.
- **Access** the latest information on technical developments in the maritime industry and events through the Institution's journals, eNewsletters and social media.
- **Career Path** - advice and assistance on further education, employment, training and professional development after graduation and throughout your career.
- **Networking** - join the global community and meet and exchange views with other maritime industry professionals, students and academics at local branches, conferences and online professional forums.
- **Pathway to information:**
- **Technical Journals** - free copies of all the Institution's leading online technical journals - The Naval Architect; Warship Technology; Offshore Marine Technology; Ship & Boat International; Shiprepair & Maintenance
- **International Journal of Maritime Engineering** - free copies of technical papers published in the Transactions and in Conference Proceedings. Preferential rates on all other publications
- **Access the library**
- **Get ahead** - awards, prizes and sponsored places at the Institution's conferences and seminars.

RINA is your Institution, so become part of a world-renowned society whose distinguished membership and alumni include some of the most eminent figures in the industry. Have your say on the main issues relating to safety, the environment, innovation etc., and influence decision makers.
