The 2019/2020 season has been another successful year for the RINA London Branch, with good attendances at presentations.

Since the last AGM, there have been twelve (12) events. Unfortunately, our May event had to be cancelled because of the availability of the speaker. Hopefully the topics covered the various interests of our membership. Details of all of the presentations delivered are on the reverse of this report.

The meetings were held at Lloyd's Register and on the HQS Wellington in conjunction with The Honourable Company of Master Mariners. The RINA London Branch wishes to thank Lloyd's Register and the Honourable Company of Master Mariners for their support in providing venues for the Branch meetings.

We again scheduled a lunchtime event in January in association with Lloyds Register and it was another success.

This season we held a networking event at the Thames Barrier in October.

The average number of people attending the London Branch events has been 33, a reduction from the previous year.

During this season, the Branch has increased the number of Email addresses on our circulation list as directed by Members, to enable the Branch to keep people informed directly about the Branch meetings. The Branch Council has tried to ensure effective targeting of our advertising posters by keeping their distribution list under continuous review and we also continue to publicise our meetings on the RINA website and via RINA HQ e-blasts.

The Branch has again continued to issue certificates of Continuing Professional Development upon demand for those attending presentations.

The RINA London Branch were obliged to cancel all presentations from March through June in line with Government restrictions and advice due to the Coronavirus pandemic. The Branch will monitor further such advice. All being well, it is hoped that most of the cancelled presentations can be re-scheduled in the 2020/2021 season.
