## **“Structural Failure of MSC Napoli – the Incident & Cause”**

### Abstract:-

This presentation looks in detail at the accident and the causes that lead to the disaster. The presentation also covers briefly refloating operations of MSC Napoli.

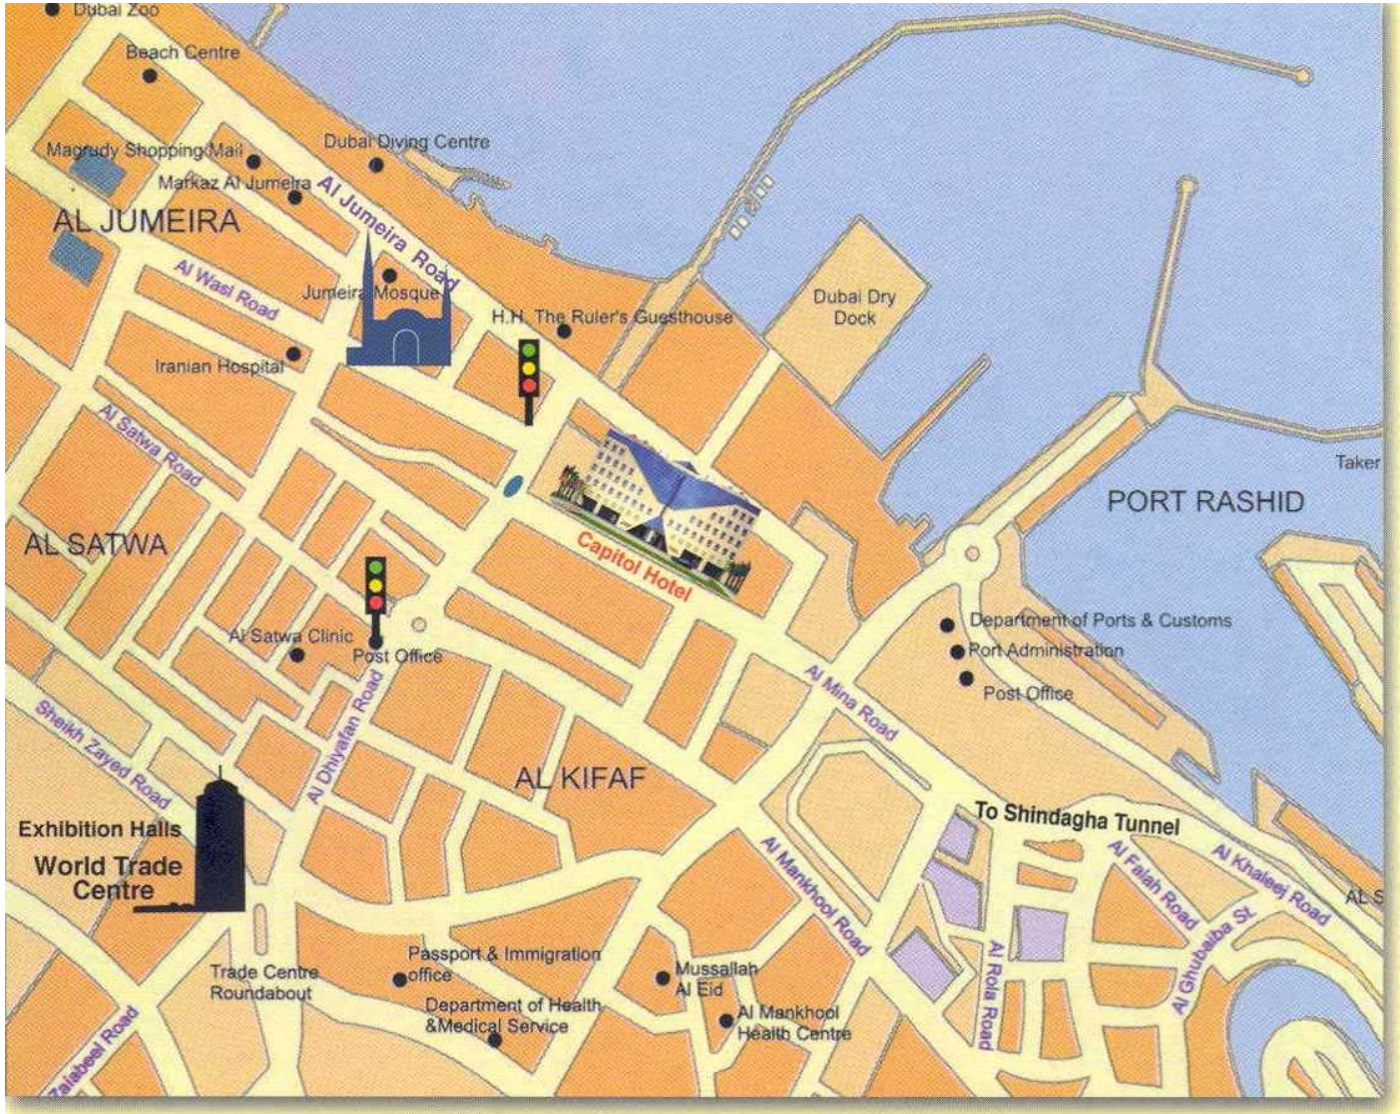

### Bio:-

Mrs. Catrine Vestereng has an M.SC from NTU in Trondheim with over 16 years experience in DNV including senior positions in offshore engineering, new building and ships in operation including hull approval. She has spent 3 years as a ship surveyor and conversion project manager in Korea and China. Currently she is Head of Section, DNV Ships in Operation, in DNV Oslo Office. Catrine was a member of the investigation committee from DNV that looked in to the MSC Napoli disaster.

Date - 6<sup>th</sup> May 2009, 6.30 PM to 7.30 PM.
